

# Mathletics Summer Certification Program

Dear Student,

You have been assigned to use Mathletics over the summer to practice all of the skills you have learned this year and to get ready for the beginning of next school year. You have 24/7 access to Mathletics through your unique username and password, which is attached to this page below.

During the summer months you are responsible for earning **2** Mathletics Certificates. **GRADES 1-2**

Students can only receive one certificate each week (awarded when 1000+ points are earned), Sunday to Sunday. Points can be earned by practicing Curriculum Activities in the center of the screen, or Live Mathletics fluency challenges at all ten levels. Remember that curriculum activities are worth more points than Live Mathletics and can be completed up to three times for points!

You can earn a certificate on a desktop computer, laptop computer, or any of our supported tablets, including iPads, by downloading the Mathletics Student App.

## How do I earn a Mathletics Certificate?

You receive a one certificate maximum when you earn 1000+ points per week (Sunday to Sunday!)

## What should I work on in my Student Console to earn points?

You can earn points by practicing:

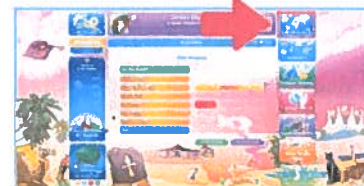

### Curriculum Activities

OR

\*Remember that curriculum activities are worth more points than Live Mathletics and can be completed up to three times for additional points!\*

### Live Mathletics

## How can I find out how many points I've earned this week?

Take a look at your "Weekly Points" on the left side of your screen to keep track! You'll see an award appear when you've earned more than 1,000 points that week - Remember to earn all of your points before Sunday!

## What should I do when I have met my summer certificate goal?

Click "MY AWARDS" under your Weekly Points. Print all of the certificates you have earned throughout the summer and bring them to school on the first day to celebrate your hard work!

**IMPORTANT!** Only one certificate can be earned each week, so be sure not to procrastinate - you can't earn all of the assigned certificates during the last week of summer!

Have a great Summer!
