Your child is getting ready to transition to a summer of fun and academic growth using Freckle. This engaging online learning platform allows students to practice math at their own level. Freckle continuously adapts to each student's individual skills, so they get the appropriate challenge whether they're working at, above or below grade level. Within Freckle, your child will benefit from lessons, videos and multiple chances to continue improving their math skills over the summer.

Freckle is accessible 24/7, wherever an internet connection is available. The student logs in to Renaissance, using the same URL, username and password that they use for Accelerated Reader.
